Hello Whitney,

Welcome to your Personality Profile, please check the birth details of your horoscope are correct. This report sets out to give you an assessment of your personality and character development by interpreting the different parts of your birth chart.

Your birth chart represents a map of the solar system for the exact time and place of your birth, it's a blueprint of your personality and represents a set of potentials, with the contents being added through the experiences of life.

Most people are aware of the Sun's zodiac sign that they were born under, however, it's not only the Sun sign that exerts a powerful influence over the birth chart and character. The Rising Sign, the Moon, the planets, the angles they form to each other, called 'aspects', their zodiac sign and house positions also play an important role.

As you read through this analysis, you will occasionally notice that contradictory information may be given. This is to be expected, as each individual's character is extremely complex. For example, at times we can be aggressive and confident, and at other times withdrawn and moody. And if planetary patterns seem to be repeated time and time again, that's because the analysis is focusing on a particular and very important strength or weakness within your character.

The birth chart is comprised of three basic factors.

- 1.** The Planetary Aspects (angles) formed between the Sun, Moon and planets, as seen from the Earth, are represented by the lines in the centre of your chart and the intensity is indicated by the number of stars each aspect is given in the report.
- 2.** Each planet is located in a particular Sign of the Zodiac. The symbols for each Zodiac Sign are placed around the edge of the birth chart, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, and Pisces.
- 3.** Each planet is also located in a particular House, numbered 1 to 12 in the birth chart.

How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. Your birth chart, is indeed unique, although many people may have, for instance Mars in Scorpio, or Venus in Capricorn, and hence have certain traits in common, the number of ways in which the three factors of Planetary Aspects, Zodiac Signs and Houses can be combined is infinite.

The 'Aspects' are given a Star Rating from one to five to show their relative importance in the Profile. To the right of each pair of 'aspect' symbols is a group of five stars ★☆☆☆☆, the more dark stars there are the more important the connection. The keys for the planets and the other symbols and terms used are given at the back of the report.

Personality Profile Interpretation

Your birth chart shows the exact positions of the planets at your time of birth. It also tells you the sign of the Zodiac that was rising at your time of birth, known as your 'ascendant'. How the planetary positions of your birth chart relate to each other are interpreted on the following pages outlining your potential development. The interpretation begins with your overall character and temperament.

Whitney's character

Whitney's energy level

You have predominantly hands-on attitude towards personal and professional situations and crises. You react swiftly and spontaneously, taking the initiative in order to control events and steer them your way. Indeed, you need to feel in control to be really happy. You have a lot of dynamic sometimes irrepressible energy and a corresponding fund of enthusiasm. Inclined to be hot tempered, you can flare up quickly and easily. However, just as easily, you forgive and forget, for your energy is too fast-flowing and therefore continually regenerative, to become stuck on things which rapidly become overtaken and superseded by time.

Whitney's temperament

Whitney is fair and even handed

Your powers of initiative, conviction, and perception combine well to help you cope with and understand the ever-changing demands of life's experiences.

AS

The Ascendant or Rising Sign

Represents the area of life concerned with your sense of self-identity, the impression you give and how others see you.

AS in X

Self-identity

Surrounded in a cloud of mystery, others find you enigmatic, alluring and attractive. At times, however, life may be seen through rose tinted glasses. There's also a danger of turning to drugs or alcohol to alleviate harsher realities. But at its most positive, this is an excellent placing for those in the caring professions as your sensitivity and sympathy allows you to identify with others.

AS ♀ ♀ ★★★★★☆

Courage of your convictions

You're a good listener and will listen carefully to the opinions of others before expressing your own.

Occasionally, however, the opinions you express won't be your own, but the reflection of those around you. In wanting to be liked and accepted, there will be times when you say what you think others want to hear, rather than risk stirring up controversy and opposition against yourself.

However, the need to appear to be in agreement with those around you won't necessarily achieve the results you're after. Some will be aware of what you're doing and may conclude that you don't have a mind of your own, or that you're being condescending. However, if you find the courage of your convictions, and accept criticism as well as praise, then you'll have a great talent for communication with the ability to formulate ideas and project them in a way that others can easily understand.

AS ♂ ♂ ★★★★★★

Over-eager

In your eagerness to assert yourself you occasionally show little tolerance for other people's weakness and a lack of understanding for their feelings. At these times you'll say or do things without giving any thought to the effects your words and actions may have and, as a result, you may occasionally rub people up the wrong way or create bad feelings unnecessarily.

There is a strong need to be assertive in your relationships and to establish yourself as the dominant partner. You expect your partner to do things your way, but you're intolerant of any attempts to dominate you, or restrict your actions in any way. Frustrations and dissatisfaction in your work or professional life will often be taken out on those closest to you, in your home.

AS ♀ ♀ ★★☆☆☆

Eccentric

In your relationships with others you'll be attracted to people of like mind who also have a vision of the future and who are not bound by the values of the past.

In your close personal relationships you'll try to find a partner who needs as much freedom and personal space as yourself, who in turn won't interfere with your own need for freedom. Talk of a formal commitment could make you feel uncomfortable and edgy as you feel that the only commitment necessary in a relationship is the feelings that each has for the other - unconfined by a sense of duty and responsibility.

AS ♂ ♀ ★★☆☆☆

Friendly

You're sensitive to subtle vibrations in your environment. You have an instinctive feel for the unspoken or suppressed emotions of people around you, enabling you to make appropriate responses to any situation in which you may find yourself.

AS ♀ ♃ ★★☆☆☆

Self analysis

You may have to occasionally go through some kind of almost 'destructive' experiences through your relationships. There's a tendency to attract partners who attempt to dominate you or manipulate you.

As a result you may occasionally find yourself involved in intense ego battles with your partner, with each one trying to gain the upper hand, or even the under hand. For you relationships are experienced as a burning ground that evokes your deepest fears and doubts, as well as your highest hopes and desires.

The experiences you attract are reflecting something within yourself that you refuse to face. It will require some deep self-analysis and self-honesty to get to the root of the problem. When this is achieved you will be able to calm your relationships down to a less intense and overpowering level.

The Sun

Your essential self, the focus of your being. It indicates what you are striving to become as an individual.

Vitality

Your basic nature is proud and generous, with a love of dramatic gestures. You have an innate loyalty and warmth and are generous and affectionate to those you love. You have a need to express yourself creatively and to be accepted for yourself.

You have the strength and determination to achieve your aims, once you have decided what they are. Your willpower is generally strong and once you have set your mind on a course of action you can carry it out with great enthusiasm. However, you'll also need to beware of a tendency to become fixed and dogmatic in your opinions, occasionally being rather intolerant of other people's faults and shortcomings. This arises from your intolerance of your own faults and shortcomings. You may refuse to acknowledge them, or if you do, refuse to live with them. Expecting perfection of yourself leads you to expect perfection in others.

6th house

Your attitude toward, your working environment. Health and the interaction of your mind and body to maintain the efficient (or inefficient) working of your physical body.

Self expression

You'll need to help others in some way or be of service to others. This may involve work that makes you feel that you're doing something worthwhile and important, but you'll also have to beware the tendency to stress the needs of others, whilst neglecting your own needs.

Confident

The past doesn't hold you back but sustains you in your drive towards the future. In your relationships you'll try to strike a creative balance between your emotional and security needs and your need to be yourself and find your own direction and purpose.

You're able to work well with children, helping them to develop their own creativity and self-determination. Because of your sympathetic nature, other people will often come to you for advice, or for a shoulder to cry on, and you'll be able to draw on your own past experiences to throw light and understanding on their own difficulties and personal problems.

Good fun

You're something of a charmer and, whether you'll admit it or not, you need to be liked by other people. You're not the sort to hide in a corner at parties. You like to be noticed and to be seen as a friendly, sociable and fun person, which of course you are!

Lucky

You have an optimistic, generous and loving nature and because you're so giving towards others, in return, help seems to come to you when you most need it.

Restriction

During childhood you may have felt misunderstood and blocked by obstacles and frustrating delays, either through bad health or through a difficult relationship with one or both of your parents. Your father may have been a harsh disciplinarian, or was not there for long periods of time. Even now you probably feel that people and circumstances are constantly holding you back and preventing you from being what you want to be.

Creative potential

You may occasionally experience some confusion concerning your sense of who you are and where you're going in life. Past experiences and events may occasionally raise issues that force you to examine yourself honestly and understand how you drew these experiences to you and what you must learn from them. However, at times, you'll often evade reality by escaping into a world of dreams and fantasy.

There will also be times when you tend to underestimate your abilities with the fear of failure preventing you from doing things that you would be fully capable of. In time, and probably after a great deal of self analysis, you will become more confident about your own creative potential and set higher goals for yourself.

The Moon

Represents the emotional and compassionate side of your nature and your immediate emotional reaction to life pleasures and problems. It also indicates attitudes instilled in early childhood.

☾ in ♈

Habits

You're naturally persuasive and can easily attract others to you. You react very quickly to situations around you, but remember to look before you leap!

You're potentially volatile and overpowering, but sincere and loving as well. You have an enthusiasm for life, and a naturally direct approach, but you may occasionally need to develop patience. You may be patient and understanding, but if you're caught unexpectedly, or your feelings are hurt, you can surprise yourself and others with the strength of your anger and aggression.

1st house

The area of life concerned with your sense of self-identity.

☾ in 1st House

Attitudes, emotions and specific needs

You'll generally be seen as kind and sympathetic, the kind of person to whom people can turn to pour out their problems. You'll also be very sensitive to the atmospheres around you but at times, with your naturally receptive nature, you may have difficulty in separating your own moods and emotions from those you have picked up from your surroundings.

☾ △ ♀ ★★☆☆☆

Emotional confidence

You're optimistic and positive about your relationships, able to see the best in everybody.

People are attracted by your calmness and openness and you can often help others with problems. You like honesty and sincerity in others, and strive to maintain these qualities in yourself. You always do your best in whatever you do, believing that if a job is worth doing, it is worth doing well. You have a talent for bringing out the best in others.

☾ ♂ ♃ ★★★★★☆

Emotional support

You're both generous and sympathetic towards others with a genuine concern for those in need. Any personal ambitions you may have will be directed by a need to contribute something positive which benefits others as well as yourself. You learn something positive from all your experiences. This optimism and faith helps life to work to your advantage and things will generally work out well for you.

☾ ✖ † ★★☆☆☆

Dependable

You can be reserved and cautious in your feelings for others. You need to understand the people you are close to before you're prepared to reveal your deepest emotions.

Nevertheless, you're dependable, are good at listening to other people's problems and are willing to help practically, or simply by understanding. You have a common sense approach to practical matters and can usually manage things to get by even in times of trouble.

♁

Mercury

Represents your communication skills and how you think and receive information from others.

Mentality

Your mind is both practical and analytical. You're able to evaluate any issue or idea, reducing it to its component parts and seeing how all the parts fit together. This gives you an excellent managerial ability and an incisive intellect which, given time, can find the solution to any problem. This ability applies more to practical and material matters rather than emotional ones.

You have a strong critical ability, able to see the flaws and errors of logic in an opponent's arguments. You can, however, be over-critical and impatient with anyone whose thinking and ideas are more intuitively or emotionally oriented. Your nerves are highly strung and you'll therefore probably need to carry out some form of relaxation to prevent this taking its toll on your body.

7th house

Relationships, how you express yourself in your relationships and what qualities you seek in others. Your marriage partner, at least the first major relationship with that kind of commitment.

Communication skills

Will be in the area of relationships and close partnerships. You'll therefore have a need to find a partner who you find physically attractive but an equal priority will be that they're also interesting and intellectually stimulating. You enjoy discussing other people's thoughts and beliefs, as well as expressing your own, as you have a genuine desire for mutual communication and understanding.

You may find, however, you can never settle down to one thing and as different people are interesting in different ways, so you may have difficulty in finding one person to whom you can make a permanent commitment. On the other hand, if you are looking for commitment, you may find yourself constantly attracting partners who are unreliable and difficult to pin down. Now, whilst you may be hurt by such actions, deep inside you know that this is really keeping you free.

Expressive

You tend to make fair and balanced decisions based on the evidence in front of you. You'll always be ready to give others the benefit of the doubt, to hear their point of view before expressing your own.

You may possess enhanced skills as a writer or public speaker. You're able to express yourself with a flair and charm that will win your audience over to your way of thinking.

Sure of yourself

You possess strong intellectual abilities. You like to have all the facts before you speak on anything so that when you do, you can present your case with full confidence that you know what you are talking about.

You'd make a good debater, as quite often, the strength of your argument can convince even those who disagree with you and you are able to see the flaws and weak points in an opponent's argument. However, you are also able to accept the flaws and weak points in your own argument when they are pointed out to you.

With your incisive intellect you're also able to cut through the rubbish and present an issue or subject in its essence. This can bring you success in any field that involves the communication of ideas, such as teaching, journalism and politics.

Stubborn

You don't like to be told what to think by anyone, insisting on your right to make up your own mind. This isn't necessarily a bad thing although it may occasionally lead to a tendency to be obstinate or stubborn just for the sake of it, sometimes saying and doing things just for the shock effect it produces.

Possessing an insatiable curiosity, this aspect also greatly stimulates your intellect. Nevertheless, at times, you may find it difficult to stop your mind from racing ahead before you have fully understood what you have learned.

Although you have many original and inventive thoughts and ideas, whether or not you'll be able to make any practical use of your ideas will depend on how well you can discipline your mind.

Training

You have a sensitive and intuitive mind, often sensing and seeing things that others may miss. You have a strong imagination with thoughts that can be inspired, but you don't generally waste time in daydreaming, as the ideas that come to you have to stand the test of reason. You're idealistic, but not unrealistic.

You need to plan some kind of goal to follow and possibly get into higher education in order to make the most of your imagination and understanding and open your mind to limitless possibilities; some formal training or discipline is needed.

Intensity

Your mind has a deep, intense and penetrating quality that would suit you for any kind of investigative work, or work that requires concentration and attention to detail. Not satisfied with the obvious or superficial, you try to understand the deeper meaning to any subject or issue that you're studying.

You also have strong beliefs and when you have made up your mind on something you have a conviction and power that others will find difficult to challenge, even if they feel you're wrong.

You may have to learn to rise above deep feelings of anger or resentment towards those who have crossed you or who oppose your ideas. Instead of seeking revenge, why not channel this strong desire to hit back into more positive ends.

Venus

Represents how you express your emotions within love, marriage and other personal relationships. It also indicates your attitude towards money, possessions and your aesthetic values.

Capacity for love

You need to feel a sense of pride in yourself and in those closest to you. The worst thing anyone can do to you is to hurt that pride, and you'll probably find it very difficult to forgive anyone who does. However, in close relationships there's a desire to be the one in control. Take care that this doesn't turn into a tendency to dominate.

Love and what you value most

You'll feel that if a job is worth doing, it is worth doing well, but you may occasionally find that whilst you're striving for perfection in what you do, you're overtaken by competitors who are prepared to accept less than the best.

Physical health is important to you but you may also find that many illnesses or health problems are as a result of over-indulgence or lack of self-discipline in some area of your life.

Adventurous

You value your own personal freedom and can be easily angered if you feel emotionally hemmed in. Your temper can be explosive, but at the same time this anger passes quickly and rarely leads to any long term rift.

You have a need for adventure and new experiences and you're able to enjoy yourself in social situations, not afraid of being the focus of attention. However, there will be times when others are put off by your rather over-forceful approach especially in matters of romance.

Unrealistic expectations

You can be overly idealistic in your approach to relationships. There may also be times when you'll expect your partner to accept you with all your faults, without a word of complaint on their part or any effort to change on yours.

Very few people, except perhaps a saint, can measure up to the high expectations you set for a relationship. When things start to fall apart, you'll probably not even notice that anything's wrong until the whole thing dissolves away before your eyes.

There may also be times when you may find yourself led into actions that you later regret. This is particularly true in financial matters, so you must make sure that all your dealings are open and above board. Although some people seem to be able to get away with murder, anything shady or underhand will almost inevitably work out badly for you.

♀ ♋ ♀ ★★★★★

Love with attitude

You have strong ideas concerning love and relationships. You feel that a relationship must be based on mutual understanding, with a spiritual quality if it's to survive. You're prepared to make sacrifices for your partner, provided that they're prepared to do the same for you.

You have a need to be able to communicate on a deep level and to express your innermost hopes and fears, needs and desires. Any relationship in which you feel this isn't possible you'll probably come to regard as superficial and not worth continuing.

Your personal magnetism is charged with a charismatic quality that makes others aware that you have hidden depths beneath the surface, which they find incredibly attractive.

♂

Mars

Represents your sex drive, stamina and how aggressively you assert yourself and express your desires.

♂ in ♋

Driving force

You put a great deal of energy into personal friendships and relationships. When it comes to getting what you want out of life you'll never appear too pushy, always showing a degree of tact and diplomacy. Although when you finally do get what you want, you then may then not be too sure if it's what you really wanted anyway!

♂ in 7th House

Stamina and assertiveness

There could be a certain amount of tension and conflict in your relationships with others. There's also the danger of venting your anger on those closest to you or subtly arousing others to anger so that you have an excuse to release your own built up aggression. But you're willing to stand up for the rights of others who can't stand up for themselves. Mind you, if they simply won't stand up for themselves then you'll just lose respect and let them wallow.

The type of person you choose to live with or fall in love with may therefore be someone who has all the attributes of boldness, daring and aggression. Relationships may therefore be stormy but if you manage to respect each other's independence there'll never be a dull moment!

♃

Jupiter

Represents expansion, your sense of fun, optimism and generosity. It also gives information concerning your religious and philosophical beliefs.

♃ in ♈

Optimism and understanding

You will need to maintain a high energy level, coupled with a sense of self-esteem, in order to make the most of opportunities that come your way. This will be easy enough when things are going well, (at such times you'll feel confident and determined) but when things go wrong your determination may dissolve or you could react with anger.

You're an independent individual who needs freedom to pursue your own goals and what's more - you don't like to be obstructed on the journey.

♃ in 1st House

Optimism and understanding

You have a natural faith in life and in yourself. You can take on anything with great initial enthusiasm but, unfortunately, sometimes this enthusiasm may begin to wane when you meet with unexpected obstacles and at that point you may look around for something less demanding to which you can direct your energy and enthusiasm.

You're a natural gambler, willing to take a chance if you think that there's even a remote possibility of it paying off, but this can lead to problems since your impatient desire to jump into things may cause you to overlook potential pitfalls and problems.

♃ ✖ ♃ ★★★★★

Motivation

You're able to set yourself distant goals and can see not just the end result, but also the steps necessary to reach that goal.

You would do well in all areas of public administration, law or government, since you have a genuine interest in the just and efficient management of these social structures. You are aware of the injustices and faults in the system and would like to do something to improve things, or at least let your voice be heard.

If you can maintain drive and motivation, you'll eventually benefit and prosper.

♃ ♁ ♃ ★★★★★

Expectation

You could become obsessed with the need to achieve at all costs.

Never satisfied with what you have already gained, you may find yourself constantly seeking to press ahead and do several things at once, tending to brush aside other people's objections or advice to slow down and possibly being convinced that they are trying to hold you back. At times, however, those closest to you may feel neglected and left out and the resulting domestic problems could bring life to a crashing halt.

However, if you do take care to include others in your plans, and don't try to do everything yourself, then you'll find that you have the support you need to achieve whatever you desire and still have time to relax and just enjoy life!

♄

Saturn

Represents your sense of responsibility and limitations. It shows how you react to setbacks and the areas in which you are most fearful and insecure. Nevertheless, it is also the planet that teaches the important lessons of life and can become your greatest strength.

♄ in ♃

Challenges

It's important that you set objectives in life because once they have been determined they will be followed through to completion. You also enjoy being with others and belonging to groups or associations, which helps give security to your personal and professional life.

12th house

Surrendering to forces that are beyond your control, a higher power or ideal. Greater self understanding and spiritual goals. Large institutions such as hospitals and prisons, where many people end up if the self-surrender described above is overdone, or made to the wrong ideals.

♃ in 12th House

Setbacks and insecurities

You may occasionally be suspicious of other people's motives. At times you'll need to completely withdraw from others in order to realign mind, body and soul but people who don't really understand you may feel that they are being personally rejected.

You may find it difficult to make a commitment to anyone, or anything, out of a fear of losing your own individuality. If you can find the courage for some honest self-examination, and get to the root of what is really bothering you, you'll find or rediscover, the courage of your convictions.

♃ □ ♀ ★☆☆☆☆

Mixed dreams

At times you may feel unable to achieve a sense of real security, feeling that the results of all your efforts can at any moment be washed away by some unforeseen tide of events. Occasionally there's also a conflict between your sense of reality and your dreams and you may therefore swing between being a hard-headed pragmatist and a hopeless dreamer.

♅

Uranus

Represents the expression of your need for freedom and independence and the way you choose to experiment with life. Uranus is the motivation behind your future dreams.

♅ in ♀

Independence

You're not likely to stay in a job out of a sense of duty or tolerate work that has become routine and boring. Your work needs to allow you scope for originality, inventiveness and movement. You'll want to do things your own way and will dislike being bound by other people's rules and regulations. This could therefore lead to many disruptions and changes in your career. Beware being over critical. Unusual ideas about food may also lead to strange eating habits. There's also a slight danger of stress related illnesses and to being more accident prone than most.

♅ in 6th House

Individuality

In your work environment you need the space and personal responsibility to act on your own initiative. You're not likely to stick to a job out of a sense of duty or the need for security, neither are you likely to tolerate a job that has become routine and boring. Your work needs to allow you scope for originality, inventiveness and movement. You like to do things your own way, and dislike being bound by other people's rules and ways of working.

♅ ♀ ★☆☆☆☆

Forces of change

Everyone around your age is part of a generation that's not fooled by empty promises. Freedom for the individual and environmental issues will be of importance to you.

Neptune

Represents your spiritual self, dreams, imagination and creative abilities.

Idealism

Born between 1957-1970 you are part of a permissive generation whose experimentation with sex and drugs invaded everyday life and eroded many traditional family values. This was also the most prominent time of the Cold War, a time of spies and secret surveillance.

8th house

Relationships or partnerships in which you relate to others on a deeper, more emotional level, sex, beginnings and endings, joint resources and money held in common, and inheritances.

Intuition and uncertainty

You need to be completely open and honest with anyone you are emotionally involved with. In all business and financial matters you'll need to take care that everything is open and above board, otherwise you could find your financial resources being dissolved away.

Generational influences

Starting in 1942, and for the next hundred years, everyone born during this time will be affected by the changes taking place in the world's collective psyche. The keynote of this entire period will be the complete transformation of our existing scientific, religious and political belief systems.

Pluto

Represents the secretive side of your nature, your obsessions and shows us how to come to terms with and deal with your deepest insecurities.

Forces of change

Pluto was in Virgo between 1957-1971. When you were born your generation experienced a time of powerful political forces such as trade unions, unparalleled changes within the health and welfare system, a time of tremendous changes within many work environments due to computers and automation. New developments in birth control led to greater sexual freedom, and experimentation with psychedelic drugs revealed previously unknown levels of consciousness.

♃ in 7th House

Secrets, powerful obsessions

There will be times in your life when you'll have to deal with emotions such as jealousy, anger and greed - either your own or another's. There's also a danger of your blaming your partner for emotions you would rather not face within yourself.

There may be many battles over who has control in your relationships and, through the fear of being dominated, you'll probably try to gain the upper hand first. You will be irresistibly attracted to powerful, influential people who will have a transforming effect on your life. Power in others fascinates you.

You will occasionally be forced to face your deepest fears - sometimes with accompanying emotional pain. You may feel at times that a part of you has died, but the death of an old way of being or feeling usually has to occur in order to make way for something new to grow.

MC

The Midheaven

Represents your ambitions and potential for achievement.

MC in ♈

Career

Optimistic and enthusiastic energies will be concentrated on your career. But you must be free to make your own decisions and act upon your own concepts and ideas - restrictions will not be tolerated. You may have to travel in connection with your work or have much contact with foreign companies or individuals working abroad.

♁ in ♁

Future growth

Learn the value of home life and your ability to express emotions honestly. Do not be afraid of being wrong.

♁ in ♋

Developing experience

Be responsible for your own destiny.
